PROFILE

I am a curious and determined individual who believes in learning by building. From experimenting with creative ideas to turning them into real web experiences, I enjoy the process of bringing imagination to life. My dedication and passion for development helped me secure second place in a national-level hackathon, which was a turning point in my journey. I constantly push myself to improve, take on new challenges with excitement, and find joy in crafting things that people can interact with and enjoy. I look forward to growing every day — not just as a developer, but as a thoughtful and innovative creator.

EDUCATION

08/2023 – present Jaipur, India	Bachelor of Technology <i>Arya Institute of engineering and technology</i> CGPA :8.1
08/2022 – 04/2023 Uttar Pradesh, India	Senior Secondary Education <i>Sadhuri Shiromani Inter College</i> Result :83.80%
